

AN INSIGHT INTO THE BEAUTIFUL WORLD OF ELECTRONICS

Objective:

Offer students an immersive experience providing insights into the captivating realm of electronics, aiming to enhance their understanding and curiosity about the diverse applications.

Target Crowd:

II Year ECE Students

Resource Person:

Dr. S MUTTAN
Professor of Eminence, Centre for Medical Electronics,
Dept of ECE College of Engineering,
Anna University
Chennai 600025

Timing:

25.03.24
10:30 AM -12:30 PM

Outcomes:

Second-year ECE students levelled up their electronics game! This course equipped them with a strong foundation in various areas, including:

- **Circuit Design Savvy:** They mastered the principles of crafting effective electronic circuits.
- **Component Champions:** Students gained expertise in selecting the right components for their projects.
- **Troubleshooting Titans:** The course honed their skills in identifying and resolving electronic problems.
